Who Is Bryan Parker?

The candidate who has raised the most cash in this year's Ohioan mayor races enjoyed success as a top executive for a large corporation that has been accused of fraud and corruption

By Lauren Berkelebach, Lily Schmitt, Rapper and Winston

Bryan Parker from inside Columbus provided some last spring with a slight but powerful commotion: He publicly accused one of the most powerful people in the city of corruption. Parker, who was then a top executive at a large corporation, had been accused of fraud and corruption. The following diversity indices of species richness and evenness were calculated for each community using the following formulae: $H' = -\sum_{i=1}^S p_i \ln p_i$ and $P = \sum_{i=1}^S p_i^2$, where H' is the Shannon-Wiener diversity index, P is the Pielou evenness index, S is the number of species, and p_i is the proportion of the i th species in the community. The species richness index (S) was calculated as the number of species per sample. The species richness index (S) was calculated as the number of species per sample.
